Introduction

The Meeting Minutes-ISSG form has been designed for capturing all the key talks, decisions, or action items connected to the meeting that has to put emphasis on security. These minutes will offer the formal record of an agenda of the meeting, including progress and accountability for crucial concerns connected to information security.

Purpose

- Detailed and structured record of conversations, major concepts, and decisions from the ISSG meetings.
- Ensure that the organization's ISMS is regularly maintained and upgraded.
- Provide a formal guide to the organization on how best to control information security.

Minutes summary

The **Minutes Summary** section captures each meeting's key points and outcomes in an organized format. It includes:

- **Reference Number:** A reference number should be issued to each agenda item for easy tracking and subsequent follow-ups.
- **Item:** A summary of all the conversations from the opening remarks to detailed security reviews.
- **Details:** More specific details concerning the talks on each agenda item, so as to put emphasis upon the real matters discussed at the meeting.
- **Actions:** This is a column to list actions that are needed based on conversations. This holds the stakeholders accountable and gives a clear next line of action on the job.

Ref	Item	Details	Actions
001	Compliance Review	Discussed the upcoming ISO 27001 audit. All departments are prepared for the audit, no major concerns raised.	Finalizing audit checklists needed for it
002	Project Updates	Updates to new systems implementations	

Note: The sample values provided below are for illustrative purposes and should be adjusted to reflect actual company targets
